

HOUSE PASSES TAX REVISION BILL

ESTIMATED IT WILL CUT \$818,000,000 FROM TAXES BY 1923

Measure Receives Almost Straight Party
Vote—Expected to Produce a Total of
\$3,347,000,000—Repeals the So-Called
Luxury Taxes Now Collected by Retailers

WASHINGTON, Aug. 20.—The tax revision bill of 1921 estimated to cut \$818,000,000 from the nation's tax burden by 1923 was passed late today by the house 274 to 125, on an almost straight party vote.

Three Democrats supported the measure and nine Republicans voted against it. The Republicans included Beck, Wisconsin; Lampert, Wisconsin; Michaelson, Illinois; John M. Nelson, Wisconsin; Voight, Wisconsin; Woodruff, Michigan.

Representative London, Socialist, New York, voted against the bill. Compared with this number of Republicans were 50 who voted for a Democratic motion to recommit the bill for elimination of the provision repealing the income surtax rates above 32 per cent. This motion was lost 169 to 230 with one Democrat voting against it.

Republicans supporting it included: Beck, Wisconsin; Brown, Wisconsin; Dowell, Iowa; Frear, Wisconsin; Cooper, Wisconsin; Gorman, Illinois; Hull, Iowa; Ketcham, Michigan; King, Illinois; Kopp, Iowa; Lampert, Wisconsin; Michaelson, Illinois; Murphy, Ohio; A. P. Nelson, Wisconsin; John M. Nelson, Wisconsin; Ramseyer, Iowa; Stafford, Wisconsin; Voight, Wisconsin; Volstead, Minnesota and Woodruff, Michigan.

The bill will be sent Monday to the senate, where it will be taken up after the end of the recess on September 21.

To Hold More Hearings.
Meantime the senate finance committee will hold additional public hearings on the whole question and probably revise the measure. As finally passed the house with nearly 100 committee amendments the bill is estimated to produce a total of \$3,347,000,000 revenue this fiscal year or \$221,000,000 less than the estimate under the existing law.

As repeal of the excess profits tax and higher income surtaxes would not become effective until next January 1, the full force of the measure will not be reflected in government receipts until the calendar year 1923 but Republican leaders say that repeal of the transportation and other taxes and reduction in the tax bill in the next calendar year will be approximately \$512,000,000.

Principal Changes in Bill.
The principal changes in present tax levies made by the bill as passed include:

Repeal of the excess profits tax.

Increase of the corporation income tax from 10 to 12 1/2 per cent, effective next January 1.

Repeal of the income surtax rates from 32 per cent to 65 per cent inclusive.

Increased exemptions to heads of families, effective as of last January 1 to \$2,500 for incomes not in excess of \$5,000 and additional exemption for dependents to \$400 from \$200.

Repeal of the tax on life, fire and marine insurance policies and imposition of the corporation tax of 12 1/2 per cent on all such insurance companies, exempt fraternal, effective next January 1.

Repeal of the taxes on fountain drinks, ice cream and other beverages and the substitution of manufacturers' taxes as follows:

Four cents a gallon on certain beverages; five cents a pound on carbonic acid gas; two cents a gallon on fruit juices of soft drinks; three cents a gallon on still drinks; exclusive of mineral and table water, and ten cents a gallon on fountain syrups. These changes would go into force on enactment.

Repeal of the stamp taxes on perfumery, cosmetics, toilet preparations and proprietary medicines upon enactment of the bill.

Repeal of the ten per cent tax on baseball, football and basketball equipment, skates, toboggans, snow shoes and skis and reduction of the ten per cent to five on tennis, golf and polo equipment, guns and the like, the whole to come into force on enactment.

Exemption from the income tax of the first \$500 of income from investments in building and loan associations effective at passage of the law.

Reduction from five to three per cent in the levy on candy and of from ten to five per cent in the levies on fur articles and art and art works, and repeal of the tax on electric fans.

MINERS PLANNING MARCH TO MINGO COUNTY SUNDAY

Said to be Several
Hundred Men in Par-
ty Being Formed

(By The Associated Press)
CHARLESTON, W. Va., Aug. 20.—Men from the Paint Creek and Cabin Creek coal fields along the Kanawha river assembled at Marmet near here today with the avowed intention, it was said, of making a demonstration against Mingo county where martial law has been in force for several months as the outcome of an industrial controversy. Some six or eight hundred men were in the party and it was said they would begin to march tomorrow morning reaching Mingo thru Boone and Logan counties.

Colonel Jackson Arnold, commander of the state police, declined to discuss the situation and from no other official source was any information given out.

It was known that late in the day a crowd of 600 men had collected in a hollow about one mile from the railroad station at Marmet. Armed guards patrolled the road leading to the rendezvous and strangers were excluded. A correspondent who succeeded in passing the guard and mingled with the crowd said upon his return that he was quickly singled out and told that his presence was not desired and he was advised, in courteous terms to leave which he did.

Will Not Interfere.

C. F. Keeney, president of District No. 17, United Mine Workers said tonight that the men could march to Mingo as far as he was concerned, and that he would not interfere. He said he had been informed the miners were to have a meeting at Marmet but that he had not been invited to attend.

"I wash my hands of the whole affair," he declared. "I've interfered time and again to stop such enterprises. I seem to have halted them only temporarily." The miners' president added that he had little faith in the ability of the men to withstand the hardships of a march 80 miles across mountainous roads.

Repeated efforts by miners' organizations to have the courts free prisoners taken under the provisions of Governor Morgan's martial law proclamation, have been without avail. Only a few days ago the supreme court of appeals refused to release a large number of men held in custody at Williamson, the county seat of Mingo and upheld the governor's right to enforce martial law for the second time.

Has Sufficient Authority.

The secretary, they contended, has now sufficient authority to negotiate the settlements and they suggested that the obligations of the foreign governments be held in their present form "until our government shall have sufficiently crystallized its policy to know exactly to what use they can best be put."

The best and most practical method of handling the questions is afforded by the measure, the majority report declared, adding that it was necessary for some one to be authorized to deal promptly with the situation.

Assurance was given that the treasury secretary does not intend to accept obligations other than those of the debtor country in the case of the principal debtor countries.

WOMAN KILLED AT
GRADE CROSSING

Gary, Ind., Aug. 20.—Mrs. Earl McDonald, 33 years old, of Keeler, Mich., was probably fatally injured at Chesterton east of Gary, today, when an automobile driven by her husband stalled on a crossing and was hit by the Twentieth Century Limited. McDonald jumped in time to save his life, carrying two children in his arms. Mrs. McDonald was brought to a local hospital where little hope was held for her recovery.

LITCHFIELD GIRL
DROWNED IN WISCONSIN

Litchfield, Ill., Aug. 20.—Information that Miss Minnie Voyles, daughter of Mrs. Nancy Voyles of this city, and her fiancé were drowned while boating near Baraboo, Wis., was received by the girl's mother today.

The couple were to have been married next month, she said.

CONFEREES ARE AGREED ON THE ANTI-BEER BILL

Search of House Not
Permitted Except
With Warrant

(By The Associated Press)
WASHINGTON, Aug. 20.—The conference report on the anti-beer bill definitely agreed on today and presented to the senate, exempts a man's home from search without warrant obtained in due course of law, but requires no warrant to search other property provided an officer acts without malice and has reasonable cause to suspect the presence of liquor.

With presentation of the report, word reached the senate that house prohibition leaders had declared there would be no recess of congress until the measure had been duly enacted. Senate leaders announced that it was hopeless to expect senate acceptance in view of the rejection by the conferees of the Stanley amendment, passed unanimously and designed to protect the home and other property from indiscriminate search thru imposition of heavy penalties.

The only point at issue in final deliberations of the managers was the searching provision. In reaching a compromise both the senate and house amendments on the subjects were discarded. In their place the conferees adopted the following section:

Section 6. That any officer, agent or employee of the United States engaged in the enforcement of this act or the national prohibition act, or any other law of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Whoever, not being an officer, agent or employee of the United States shall falsely represent himself to be such officer, agent or employee and in such assumed character shall arrest or detain any person or shall in any manner search the person, buildings or other property of any person shall be deemed guilty of a misdemeanor and upon conviction thereof shall be punished by a fine of not more than one thousand dollars or imprisonment for not more than one year, or by both such fine and imprisonment.

Section 7. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 8. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 9. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 10. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 11. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 12. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 13. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 14. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 15. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 16. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 17. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 18. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 19. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 20. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 21. That any officer, agent or employee of the United States who shall search any private dwelling as defined in the national prohibition act, and occupied as such a dwelling without a warrant directing such search, and who while so engaged, shall without a search warrant, maliciously and without reasonable cause search any other building or property, shall be guilty of a misdemeanor, and upon conviction thereof, shall be fined for a first offense not more than one thousand dollars and for a subsequent offense not more than one thousand dollars or imprisonment for not more than one year, or both such fine and imprisonment.

Section 22. more than usually successful this year. The chautauqua is a county institution and people generally are proud of its possession and glad to know of its increasing popularity and success.

In all this talk about taxation, being the most important subject before congress and a basic matter when the prosperity of the country is considered, there seems to be only one real point of agreement—that is, action should be quick. A great many business men while hoping for reduction in taxes, are interested most of all in having the decision as to just what the taxes will be. They want to know what they must count on in the days to come.

There is almost as much speculation these days about the identity of those who will represent the United States at the dismamented conference as there was about the membership of President Harding's cabinet. Some of the guesses made will be just as far from correct as they were when the people were speculating about the cabinet positions.

One of the finest things in connection with local colleges is the fact that the students of earlier years maintain such a real interest in the colleges that they send their sons and daughters here. Just the other day a Quincy citizen who graduated from Illinois College and whose father was also an alumnus, brought his son here for the enrollment and the boy will be on the hill next month.

Down at the Woman's College one room reservation has already been made for 1928. The student who is to occupy it is now one year old but the mother, who is a graduate of the college, wants to be certain that her daughter can find a place at the college when she arrives at college age.

A CONSTITUTIONAL QUESTION.

While the conferees at Washington are having heated discussion about the anti-beer act it remains for a Decatur woman lawyer to declare that it doesn't make much difference. The attorney maintained that the whole matter is determined by the constitution. The Decatur Review, commenting upon the attorney's viewpoint, says:

"It may be worth while to study over that communication from Miss Fannie Bivans, Decatur's woman attorney who was complimented by the Illinois supreme court on a brief which she presented in a case which she had before that august body."

"When Miss Bivans says that under the constitution of the United States home brewing of intoxicating liquors is forbidden and quotes the amendment itself to prove her statement it may be just as well to hesitate about the

acceptance of any dictum based on a law passed by congress. The constitution of the United States is a standing block in the path of the home brewers, says Decatur's woman counsellor, congress or no congress."

ARCHIE STANSFIELD WEDS MISS IVA RIGGS

Well Known Murrayville Man and Miss Iva Riggs of Near Roodhouse United in Marriage Saturday Morning Here.

The marriage of Archie K. Stansfield of near Murrayville and Miss Iva B. Riggs took place in this city at 10 o'clock Saturday morning, the ceremony being performed by Rev. M. L. Pontius at the Central Christian church parsonage. The witnesses to the ceremony were David Stansfield, father of the groom, and Mr. and Mrs. H. B. Riggs and Russell Riggs, parents and brother of the groom. The ring ceremony was used.

Soon after the ceremony the bride and groom left for their future home on a farm two miles south of Murrayville.

The bride is a niece of County Clerk George L. Riggs of this city and belongs to one of the well known Greene county families, residing about eight miles east of Roodhouse. She is a young woman of charming personality and is very popular among her many friends.

Mr. Stansfield is a son of David Stansfield, a prominent farmer of the Murrayville neighborhood. He was a student at Whipple Academy in this city for three years and is well known among the younger people of the city. He was in the army for thirteen months during the war period, seven of which were spent in overseas service as a member of the 127th infantry, 32nd division. Since his return to this county he has been engaged in farming.

Mr. and Mrs. Stansfield are receiving the hearty congratulations and best wishes of their host of friends.

We still have a good line of gingham dresses which are greatly reduced for quick selling, at HERMAN'S.

FRED C. CANNON WEDS MISS MYRTLE REYNOLDS

Fred C. Cannon and Miss Myrtle Reynolds were united in marriage last evening at 8 o'clock at the Christian church parsonage by Rev. M. L. Pontius. The attendants were Miss Lee Sherrin and Joe Towers. Miss Sherrin is a cousin of the bride from Virginia and Mr. Towers is of this city.

The bride is the daughter of Mr. and Mrs. W. W. Reynolds of North Main street. The groom is the son of Mr. and Mrs. W. S. Cannon also of North Main street. Edith of the young people attended the local schools and are very popular. After a trip to Pittsfield the couple will reside at their residence on West Walnut street.

Former Resident Has Prospered in South

John Dwyer is in the city to spend a number of days at the home of his father, Patrick Dwyer, on East Independence avenue. The visitor was a former resident of Jacksonville who has been absent for about fifteen years. Most of that time has been spent in South America. In recent years he has been a resident of Chile and has been engaged there as a general contractor. He has made a success of this business and is counted as one of the substantial citizens of the South American city in which he is a resident.

Mr. Dwyer will make a trip east before returning to his home in the southern city and will purchase for shipment some additional equipment needed in the work in which he is engaged.

WINDSTORM DOES DAMAGE IN PIKE COUNTY

The Pike County Times this week tells about the damage done by windstorm on a number of Pike county farms, especially in the vicinity of Kinderhook. On the farm of Peter Staff Sr., father of Dr. L. E. Staff, of this city, the fine orchard was damaged, fifteen or twenty trees being blown down. In addition a hay and stock shed was destroyed and damage was done to a number of other buildings.

On the farm of Peter Staff, Jr., in the same neighborhood, least twenty apple and peach trees were blown down.

CATTLE MARKET HAS MANY COMPLEXITIES

John T. Alexander, Veteran Livestock Commission Man, Talks About Market Prospects.

John T. Alexander, veteran livestock commission man from Chicago, has been spending recent days with friends and relatives in Morgan county. Mr. Alexander is head of the commission firm of Alexander, Martin & Conover, known among the most extensive dealers on the big Chicago exchange.

Mr. Alexander in conversation with reference to livestock, indicated that he was somewhat reluctant to make any statement because conditions are so unusual. "Market affairs have been so disturbed and uneven for months past that I am loath to make very much comment or to make any special predictions. In fact, a few months ago we made various predictions which failed entirely to materialize."

"If you remember, many years ago they used to stoke heavy profits so I have determined now to go a little slow in this matter of prophesying about livestock market conditions. However, I do believe that the farmer or stock man who buys feeders of a good quality and at a moderate price will be able to make at least a reasonable return upon them."

"The indications are for pretty cheap feed this winter. As you know, the price of corn is low. There is prospect for an excellent crop and there is, in addition, a great deal of corn held over from last year. There are indications for a shortage of beef cattle during the coming year—that is, if anything like normal consumption of meat returns. The facts are that a great deal of beef meat has been consumed in the past year than was the case prior to that time."

Eating Less Meat.

"So many factories have been shut down and there has been such a slowing up of industry that the workers have cut out meat eating. Then there is the other fact, that in the war time they have continued to follow that plan. Nevertheless in a time of industrial activity when people are working and drawing fair wages, the demand for meat is good."

"Those who watch the industrial situation seem to have the opinion that the low point has been reached and that industry generally is now at least slowly upon the up-grade. So with cheap feed, a shortage of beef cattle and the prospect of some increased demand, these things lead me to the belief that the chances for the feeders are good."

"In the past months feeders have been hit hard, there is no question about that, and many of them this year will not be in the game. Cattlemen of the

northwest and southwest have also had their losses and many of them are practically out of business. This tends toward a shortage of cattle of the grade that they grow out on the big ranges."

"When it comes to hogs, the prices put on a month or six weeks ago were somewhat higher than we anticipated. However, after the high price level was attained there seemed to be a good prospect of a steady market until some time in September. But if you will notice, in the past week or ten days there has been a decided drop and I am not at all sure in my mind as to just where the market will go. But it does seem reasonable to expect that hogs will be quite a little lower by October and November."

Hog Business Pays.

"With corn as at the present hogs can be fed and sold profitably on much lower market than now prevails. As I have watched the livestock business thru many years I have come to the conclusion that the farmer who raises hogs in a country like we have around here is in a pretty safe business, one that is almost sure to make him profit. There are occasional periods of bad luck, from disease, but if you look up the names of farmers who have fed hogs constantly for a period of years you will be certain to find men who have prospered in at least a reasonable way."

"There are certainly not the hazards to hog raising that apply to some other departments of the livestock business. If you noticed the Chicago papers today you see that there is immediate prospect for much lower prices for cattle unless something is done to relieve the retail situation. In Chicago the figures show that while dressed beef wholesale prices have slumped considerably, that the retailers are still demanding the same old prices. This has the result of keeping the public from buying and the demand is being cut down. In the face of this fact farmers are rushing grass fed cattle to the market and there is nothing that the packers can do to receive and butcher them. But the certain tendency of such a condition is to push the prices downward."

"Indications are that heavy shipments of grass cattle will continue for some time, as the farmers in many localities seem intent on securing funds in this way for their immediate needs. But, as I said in the beginning, the livestock market at this time presents many complexities and an observer needs to be mighty cautious in what he has to say about it."

BLACKHEADS GO QUICK BY THIS SIMPLE METHOD

Blackheads—big ones or little ones—soft ones or hard ones—on any part of the body, go quick by a simple method that just dissolves them. To do this get about two ounces of calomel powder from your druggist—sprinkle a little on a hot wet sponge—rub over the blackheads briskly for a few seconds—and wash off. You'll wonder where the blackheads have gone. The calomel powder and the hot water wash just dissolves them. Plucking and squeezing blackheads only open the pores of the skin and leave them open and uncleanly—and unless the blackheads are big and soft they will not come out, while the simple application of calomel powder and water dissolves them right out, leaving the skin soft and the pores in their natural condition. You can get calomel powder at any drug store and if you are troubled with these unsightly blemishes you should certainly try this simple method.

INDIANS DISCUSS QUESTIONS OF OLD TIME WAR DANCES

Will Vote Whether or Not
to Retain Them in
Future

(By The Associated Press.)

OAK CREEK, S. D., Aug. 20.—Whether the Sioux Indians shall abandon the ancient dances of their tribe came actively before the convocation of Sioux at today's session in the shape of a resolution requesting the commission of Indian affairs to forbid all such dances as the sun, the ghost, the war dance and other like dances.

An old time "Pow Wow" followed the introduction of the resolution. Spotted Eagle, the oldest brave in the convocation, a former medicine man and a convert to the Episcopal church, whose missionary centennial is being observed, voiced the view of most of the braves when he stated that the question is one for each Indian to settle with "his own conscience."

At the suggestion of Bishop Remington, the matter was referred to a committee of Indians to investigate and report.

Indian dances had almost completely died out until the beginning of the world war, when they were revived in the interest of war funds.

Since the return of peace the dance craze has spread in a mild way among the Sioux. Bishop Burleson, missionary bishop of the state, is having an investigation made but meantime most white people and a great majority of the Christianized Sioux believe the revival of dancing will lead to have a demoralizing effect on the Indians.

HOUSE PASSES TAX REVISION BILL

These would be effective when the bill became a law.

A reduction of ten to five per cent in tax on motor yachts was included. Exemption from the income tax of all allowances from the federal government for the service or the beneficiary of another in American military or naval forces effective immediately when the bill becomes a law.

Repeal of all the so-called luxury taxes now collected by retailers and the substitution of a manufacturers' tax of five per cent on the following articles when sold by the manufacturer at the sums given: Carpents and rugs \$3.60 a square yard; trunks \$30 each; valises, traveling bags, suit cases and hat boxes \$15 each; purses, pocket books, shopping and hand bags, \$1 each; portable lighting fixtures \$10 each; umbrellas and parasols \$2.50 each; fans \$1 each, and house or smoking coats or jackets and bath or lounging robes \$3 each.

These changes would be effective on enactment.

Before the bill was brought to a final vote there was a turbulent scene with the result that the committee amendment proposing a tax "investigating committee" omitted.

The house was thrown into disorders when Representative Connolly, Democrat, Texas, undertook to reply to a prepared address by Republican Leader Mondell, praising the tax measure. Order was finally restored but when it came time to vote on the bill the Democrats sprang a surprise. Representative Cockron of New York rising to a question of "the highest privilege," introduced and had read a resolution criticizing President Harding for delivering a message to the senate urging postponement of action on the soldiers' bonus bill without having members of the house present to hear him.

Representative Mann, Republican, Illinois tried to shut off its introduction but Speaker Gillett ruled that it was privileged. The Republicans countered with a motion to lay it on the table which prevailed, and then the house voted to the Democratic motion to recommit.

PRIZE FIGHT FILMS BETTER THAN SEX APPEAL PICTURES

This is Belief of Mrs. Culla
J. Wahunger, W. C. T.
U. Officer

(By The Associated Press.)

SAN FRANCISCO, Aug. 20.—Prize fight motion pictures barred by law may be more inspiring and desirable than some sex appeal pictures whose display is allowed, Mrs. Culla J. Wahunger, a national officer of the Woman's Christian Temperance Union said today in addressing a Sabbath observance conference of the forty-eighth annual convention. Mrs. Wahunger charged that the present censorship of pictures is almost purely commercial.

"Pictures are not censored for what they contain," she said. "But for how well they will sell and where the best market may be obtained. The censorship itself is left in the hands of the industry."

The conference resolved for a closer observance of the Sabbath without any undue restrictions on amusements as they now exist under the law.

Former Congressman Charles H. Randall of Los Angeles addressed the anti-narcotic section of the conference. He said the "chaco" interests of the country launched a fight against him because he suggested that a ten per cent saving could be had in rent paper if the cigarette advertising were eliminated.

DR. M'CARTY MAY BE TRANSFERRED

Quincy People Worried Over
Possible Removal of Popular
Pastor.

The Quincy Herald in a recent issue says:

"The Rev. F. A. McCarty, pastor of the Vermont Street Methodist church, returned Thursday afternoon from a three week's vacation trip most of which was spent near Havana, Ill. His family returned by train Tuesday but Dr. McCarty drove his car home and did not arrive until Thursday. He feels refreshed after his vacation and ready to get hold of his work with all his old time vigor."

"Quincy people are disconcerted over the repeated rumors that Nicholson is to transfer Dr. McCarty from the Quincy church to the First church at Bloomington. Naturally these developments must wait for action by the conference which is to meet at Jacksonville in September. A Methodist minister is subject to the wishes of the bishop and district superintendents and to their wishes Dr. McCarty will have to accede as much as he enjoys and appreciates his work here."

A Complete Job Will be Cheaper

When you have your house wired it will pay you to have a complete job done instead of starting with a light or two and adding to it from time to time.

Not only will it be cheaper in the long run, but it will save the inconvenience of having workmen in the house from time to time, to make additions to an incomplete installation.

Be sure to have plenty of "convenience outlets" put in also.

CHICAGO SOCIETY BUYS OLD PRINTING PRESS

Acquisition of Elijah Lovejoy's Printing Press by Chicago Historical Society Recalls Incidents of Slavery Days.

Chicago.—Unused since 1837 when its owner yielded up his life, declaring the shame of slavery, the printing press of Elijah P. Lovejoy of Alton, has been acquired by the Chicago Historical society, and has just been unpacked from the boxes in which it has reposed for many years since it became part of the historical collection of the late C. F. Gunther of this city.

Acquisition of this press recalls the two dramatic destructions of presses with which the early newspaper history of Illinois is colored. Rioting in Alton the night of Nov. 7, 1837, ended in the death of Mr. Lovejoy and the wounding of several others. The press, with which Mr. Lovejoy's strenuous abolitionist paper, the Alton Observer, was to be continued, was dismantled and cast into the Mississippi river, the fourth of Lovejoy's presses to meet such a fate.

Declared Paper Nuisance
The Mississippi river received in the same manner the press of a paper established at Nauvoo. This paper attacked the depredations of Mormonism in western Illinois, in its first issue. Strength of the Mormons at Nauvoo, spelled the paper's immediate fate. The city council under Joseph Smith, declared the paper a nuisance, and both press and type were ordered thrown in the river. This adventure of the Mormon leaders, Joseph and Hyrum Smith, resulted in their incarceration in Carthage jail and their subsequent death, and westward movement of Mormons.

Chief place as a martyr for freedom of the press in Illinois, however, is vouchsafed that later

defender of freedom, Mr. Lovejoy. Within the territory in Southern Illinois, which slave sentiment claimed exclusively, Lovejoy had the boldness in his defense of his ideal, to establish the Alton Observer and denounce continually the practice of slave holding.

Press Thrown in River
His first press was thrown in the river July 21, 1836 very soon after his arrival. Other presses followed it into the water on Aug. 21, 1837, and on Sept. 21, 1837. The editor led a precarious existence, the object of abuse and violence, which visited him, not only by day, but invaded his home, and drove him from it.

Sentiment of the mob and many who favored slave holding was at the height of antagonism when the fourth press arrived, but the Mayor of Alton and a group of thirty banded together to protect the press and the editor. The press was landed and safely conveyed to a stone building. By the next night the mob spirit had developed. The warehouse was stormed, and the roof set afire.

The mayor, acting as mediator, advised surrender of the press but Lovejoy refused. A few moments later he was shot in the breast, and killed. Offer of surrender was then made but the mob refused mercy and threatened death of every abolitionist. Those in the warehouse broke and ran. Two of them were wounded.

Tribute by the press of the north was paid Mr. Lovejoy, and his act was subsequently referred to, and is now acknowledged as having been one of the principal heroic acts that saved Illinois from slavery.

LOCAL REMINISCENCES

The foregoing brings vividly to the mind of the writer the experiences of his father in the early days of the 19th century.

My father graduated from Andover theological seminary in 1833 and went soon after as a home missionary to Missouri where he saw slavery at first hands and had enough of it and moved into Adams county, Ill., where in 1844 I first saw the light of day.

He, his brother, Dr. Adams Nichols of Quincy and Rev. David Nelson, D. D., an eminent minister, educator and theologian, were intimately associated with Mr. Lovejoy in his great work. He was at my father's house on a short time before the tragedy and father used to tell how he warned him not to be quite so outspoken else trouble might ensue but Mr. Lovejoy thought not and knew no fear.

The thrilling stories told by those men would fill more than a volume though the habit of secrecy was so ingrained they rarely spoke of their experiences unless they were urged to do so.

Dr. Nelson was the uncompromising foe of human slavery and with my relatives and others helped many a dark skinned person towards the north star. They never went south and advised the slaves to run away but when they found them on the road they gave a helping hand.

JACKSONVILLE BABY MAKES HIGH SCORE

Wilma Lenore Gaines Daughter of Mr. and Mrs. H. V. Gaines Ties With Peoria Baby for First Place—Scores High Mark of 99.5.

SPRINGFIELD, Ill., Aug. 20.—City babies continued to make the highest scores in the second day's examinations of the better babies conference at the Illinois state fair today.

Wilma Lenore Gaines, daughter of Mr. and Mrs. H. V. Gaines of Jacksonville, and Willis M. Hexamer, son of Mr. and Mrs. J. E. Hexamer of Peoria tied for the high score of 99.5 in the division for babies between the ages of twelve and twenty-four months.

Marjorie G. Boley, daughter of Mr. and Mrs. A. W. Boley of Normal, headed the list of rural girls in the same division with a score of 98 while the rural boys were led by Merlin W. Harnley of Chatham who scored 97.

June Laverne Abney, the Springfield baby who topped the list yesterday in the division for babies between the ages of six months and one year, was outscored today by Pauline Patricia Pence, of Taylorville, whose mark was 99.5.

ARRANGEMENTS ARE MADE FOR MEETING

Agents of Life Department of Cloverleaf in Illinois and Missouri Will Foregather for Annual Session.

Walter C. Bradish, vice president, and Fay G. Smith, supervisor of the life department of the Cloverleaf Life Insurance company returned from St. Louis last night where they have been making arrangements for the annual convention of the agents of the life department of Illinois and Missouri.

This convention will be held in September and will be one of the big events in the company's calendar. Heretofore it has been the custom to hold an annual convention of the agents of all the states in which the company does business.

In recent months the company has grown with such rapidity that it now is operating in twenty nine states. This makes it almost impossible to gather the representatives in one place. Hence the officials have devised a group plan whereby two or three states are combined for the annual conventions. A few weeks ago the agents of Michigan held their annual meeting.

WITH THE SICK

Mrs. Mabel Jones Howden is recovering from her long illness in a very gratifying manner at the home of her parents, Mr. and Mrs. H. C. Jones, on North Fayette street.

George H. Tremblett, veteran C. & A. conductor, has taken a lay-off in order that he may assist in the care of Mrs. Tremblett who has not been at all well for the past few days.

Mrs. M. E. Layton has been seriously ill at the home of her daughter, Mrs. Crapin in Springfield. Mrs. Layton was in a very serious condition last Monday but at last reports seems to be somewhat improved.

John R. Mawson, who has been at Our Savior's hospital for the past two weeks, has now very much improved and was yesterday taken to the home of his daughter, Mrs. Charles T. Mackness, on West College avenue. Mr. Mawson is a Civil War veteran and one of the best known of the older residents of Jacksonville. His many friends will be glad indeed to know of his improvement.

HE LEFT THE HAY

P PLAYERS WIN IN FINAL MATCHES

The All Five Matches in Con- tests With Indian Players.

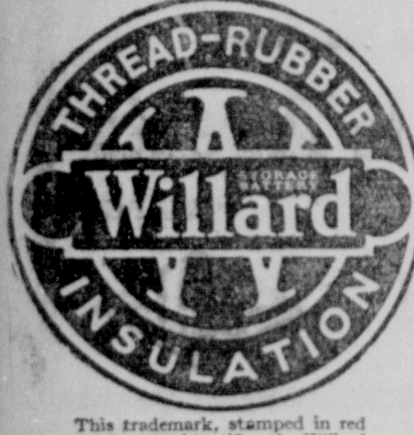

LAKE FOREST, Ill., Aug. 20.—Japan swept all five tennis matches of the Davis cup semi-final series with India on the turf courts of the Onwentsia club to- day. Ichiji Kumagae defeated A. H. Fyze of India in the first day's program of two singles matches by 3-6, 6-3, 6-3, 9-7. In the second match Zensu Shimidzu defeated Moharamed of India, 7-5, 7-5, 6-0. Kumagae's victory was won at a rousing court battle, which featured Fyze in the best tennis play given by the Indian team in three days.

Both players were bothered by heat which which veered their shots that Kumagae found in Fyze an opponent who dwarfed the unkindness of the elements.

Kumagae waged the battle with

Lefty Russell Loses Thirteen Inning Game to Erickson of Washington.

CHICAGO, Aug. 20.—Olat Erickson pitched one of his greatest games of his major league career today, holding Chicago to three scattered hits for thirteen innings, Washington winning 1 to 0. The visitors also faced great pitching by "Lefty" Russell, a recruit from the Sioux City club of the Western League. Russell lost his control in the thirteenth inning and walked three men after Smith had hit a double, forcing in the only run.

BABE RUTH INCREASED HIS BATTING AVERAGE

CHICAGO, Ill., Aug. 20.—Babe Ruth, the Yankee slugger who registered his 45th home run of the season in the first game of the farewell series between New York and the White Sox in Chicago, has batted himself to third place among the batters of the American League with an average of .374, according to figures released today and which include games of last Wednesday.

The big southpaw also increased his lead as a run getter, having registered 126 times, and boosted his total base mark to 320. Beside his circuit drive record, Ruth has cracked out 28 doubles and eight triples.

Harry Heilmann, the Detroit outfielder, suffered a slight jump but continued to top the list of players who have participated in 60 or more games, with a mark of .407. Ty Cobb is the runner-up with .381.

"S. Harris of Washington added a brace of stolen bases to his string and is showing the way to the base stealers with 22 thefts.

Other leading batters: St. Louis .365; Speaker, Cleveland .361; Williams, St. Louis .350; E. Collins, Chicago .347; Veach, Detroit .345; Severid, St. Louis .340.

Rogers Hornsby, the St. Louis star, suffered a drop in his batting average the past week and also lost the honor of leading in runs scored, Bancroft of New York, is leading the run getters, having counted 12 times, while Hornsby scored 92 runs. The St. Louis favorite, however, increased his lead in total bases among the National Leaguers, and continues to top the batters with an average of .404. His 172 hits have given him a total of 274 bases, which include 23 doubles, 13 triples and 16 homers.

George Kelly, the slugging Cincinnati first baseman, cracked out his twentieth circuit drive, and Frank Frisch, a teammate added five stolen bases to his string, bringing his total thefts for the season to 39.

Twombly of Chicago is the runner-up to Hornsby for batting honors with an average of .371, while Cruise of Boston batted himself up to third position with .352.

Other leading batters: Cutshaw, Pittsburgh .351; Young, New York .346; McHenry, St. Louis .341; Mann, St. Louis .341; Barbee, Pittsburgh .339; Fournier, St. Louis .339; Nicholson, Boston .337.

Art Butler, the Kansas City second baseman, who announced he had retired from the game, has returned to his position, and though he dropped a point in the top of the batting list of games, Butler's average for 75 games is .392.

Kirke of Louisville, who has played in 120 games is the runner up with an average of .384, while Rob Russell, the hard hitting Minneapolis outfielder is next with .374. Banny Brief, who cracked out four homers in the past week and is leading the league in circuit drives with 27, is in fourth place in batting with .370.

Kirke increased his total base record to 312, his 208 hits including 32 doubles, 12 triples and 16 home runs.

Good of Kansas City has taken the lead as a run maker from his teammate Brief, having registered 125 times to Brief's 124.

Baird of Indianapolis, continues to burn the bats with his base stealing and has brought his string up to 51 by pilfering a brace of bases during the past week.

UNIVERSITY PLANS "PLUS" CAMPAIGN

Urbana, Ill.—(By A. P.)—Plans have been completed for a "plus" campaign for the University of Illinois Memorial Stadium fund among incoming freshmen this fall, according to announcement by W. Elmer Ekblaw, former Artie explorer, director of the drive.

Practically \$700,000 was pledged by students in the campus drive last spring, and with an expected enrollment of 3,000 freshmen, the largest class in history, drive authorities predict that the student average is slightly more than \$112.

The "plus" drive will probably start on October 29, the date set for the opening of the stadium campaign, and will continue one week.

MRS. MALLORY WINS NATIONAL TITLE

Defeats Miss Mary Browne of California Two Sets in Three—Fifth Time in Seven Years She Has Won the Title.

FOREST HILLS, N. Y., Aug. 20.—Miss Mary K. Browne, Santa Monica, Calif., and Mrs. Louise R. Williams, Los Angeles, today won the national doubles championship for women, defeating Mrs. L. Gouverneur Morris and Miss Helen Gilheadeau of New York, 6-3, 6-2.

For the fifth time in seven years, Mrs. Molla Bjurstedt Mallory, a native of Norway, now resident of New York, won the National Woman's singles tennis championship today when she defeated Miss Mary K. Browne of Santa Monica, Calif., two sets out of three by scores of 4-6, 6-4, 6-2. The feat established a new record in the history of the American woman's national tennis play.

As a young woman, Mrs. Mallory, then Molla Bjurstedt, won her first United States honors in 1915, following the voluntary retirement of Miss Browne, who had won the title the three preceding years and who staged such a valiant comeback today.

Mrs. Mallory in defeating Miss Browne played one of the best matches of her career. In the former titleholder, Mrs. Mallory faced an opponent too dangerous to be trifled with at any stage of the game.

CHAPIN GRAYS PLAY HERE TODAY

Frank Smith's Indies Will Play the Chapin Grays at South Side Park This Afternoon—Visitors Said to be a Strong Team.

When the Chapin Grays appear at South Side park this afternoon the contest should prove to be one of the best seen here this season.

The Chapin aggregation has a good record for the season having won fourteen games and lost four. This is a better record than the Indies have for the season.

However, the Indies showed good form in the game last Sunday with the White Sox and should give the visitors a strong argument and if they play the ball they are capable of, win the game.

Wright will be on the mound for the Indies and the kind of baseball he pitched last Sunday should turn in a victory. Parks or Smith will do the hurling for Chapin. The teams will lineup as follows:

Chapin—A. McDaniel, cf.; O. McDaniel, 2b; E. McDaniel, 3b; A. Smith, ss; Reams, 3b; DeLoe, lf; Flynn, c; McDaniel, rf; Perkins, p; Smith, c; R. McDaniel.

NEW CLUB FORMED IN JACKSONVILLE

Swift Club Organized By Employees of Firm's Local Plant—Starts With Twenty Members.

Twenty employees of the local plant of Swift and Company met at the New Pacific hotel Saturday evening and organized a Swift club. The club is similar to ones organized in other cities where the company has plants.

Is objects are to promote closer relations between employees and between employees and the company. The main object is to boost the company and to look to its interests, the employees believing that in doing this they also further their own interests.

In boosting the company the employees will also boost Jacksonville. The men who travel for the firm from the local plant will sing praises of Jacksonville as a business and residence city through this territory.

While the club starts with a membership of twenty its promoters expect to double this within the next few weeks. The company has over 100 employees in the local plant and practically all of them will become members of the new club.

At the meeting Saturday evening Mr. Baumgartner of the construction department of the Chicago office was the guest. He has been with the company for the last twenty-five years and has been active in the organization of Swift clubs throughout the country. He made an interesting address setting forth the objects of the club and telling the members of the good that they can accomplish thru united effort.

Meetings will be held every two weeks at the New Pacific Hotel. At these meetings it is the intention to have a speaker. This speaker will be either from the main office in Chicago or else some local speaker.

But few people have any idea of the magnitude of the local Swift plant. In speaking of it last night William Robinson who is president of the new club said that the company had thirty girls in the packing room of the butter department. The firm ships about 40,000 pounds of butter each week. There also are from fifteen to twenty thousand chickens fattening each week which are killed and shipped to eastern markets. The officers of the new club are:

President—William Robinson.
Vice President—John T. Meaney.
Secretary-Treasurer—R. C. Allen.

CHAUTAUQUA NOTES

hen managers of the chautauqua take some pride in the fact that this is the fourth consecutive year in which there has been no cancellation on the part of any person or company engaged to appear upon the program. With ten days chautauqua and attractions both afternoon and evening of each day, it is an unusual record to have a four year program presented without any change.

Mrs. Al Dunlap and Mrs. H. W. Dinwiddie entertained a number of friends at supper Saturday evening, and the affair was a very pleasant one in all respects. The company included Misses Ruth Jordan, Elizabeth Martin, Helen Young, Dorothy Hueston, Grace Rexroat, Anna Dinwiddie, Helen Dinwiddie, Eleanor Dinwiddie, Marie Mason, Frances Cody, Thelma Litter, Helen Martin and Ruth Bates; Messrs. Earl Davis, Harry Cully, Harry Henderson, Fred Masters, Paul Black, John Virgini, Clarence Jokisch, George Hueston, Russell Dunlap, James Dunlap, William Dunlap, Harry Cooper, Edmund Cooper and Earl Henderson.

Rev. F. M. Rule is a veteran chautauquan. His first assembly was in 1878, when such men as D. Talmage, Joseph Cook and others were the speakers. For twelve years Dr. Rule was secretary of the chautauquas in Minnesota, Iowa and Wisconsin and was very successful in his work. Five years ago he came to this city to take charge of the affairs of his brother-in-law, the late Capt. Alex. Smith, and now belongs to the quarterly conference of Grace church, altho he still retains membership in the Minnesota conference.

Mr. and Mrs. A. B. Cratz, Mrs. Ellen Coultas and Ione Coultas were in Bardstown Friday to attend the picnic. Last summer when Mr. and Mrs. Cratz were touring Yellowstone Park they met a young woman with whom they formed a delightful friendship. They invited the young woman to attend the chautauqua with them this year and this she did, spending Saturday at the grounds.

Misses Ruth Cocking, Gladys Waltman, Leila Green and Eva Cocking of Springfield visited Friday and Saturday at Du-Kum-Inn.

Mrs. S. B. Robinson, wife of the station operator at Murrayville, visited Mr. and Mrs. C. T. Daniel Friday and Saturday.

Mr. and Mrs. Charles W. Allen, Mr. and Mrs. William Allen and daughter, Shirley of the Lynnville neighborhood visited Friday at the F. W. Scholfield tent.

Miss Fanny Boyd is down for a vacation from Ludington, Mich., and is enjoying the hospitality of the Green-Phillips tent.

Mr. and Mrs. Allen Russell of Woodson were callers at the tent of Mr. and Mrs. Thomas Irlam Friday.

William S. Frost and family of Winchester and William A. Davidson and family are pleasantly located at the C. H. Gibbs tent.

Dr. and Mrs. Samuel McCrary, son David and daughter, Nellie of Falker, Ala., and Squire Hart of Girard, are guests of Mr. and Mrs. Joshua Vasconcellos and are taking in the chautauqua.

Richard Walters who was poisoned by poison ivy, is improving, thanks to the aid of the Red Cross forces on the grounds.

Mrs. Brownlow, daughter of Mrs. Woodward, has taken quite a number of beautiful views of the park and they are very much admired by her friends.

S. P. Carter, who built the platform for the chautauqua association was somewhat alarmed Friday night when he saw the entire east of the Red Cross pageant mounting the platform. His instructions had been to make the platform strong enough to hold 25 people and he was somewhat disturbed when he saw nearly 350 people taking their places. However, the platform stood the test and evidently had been very strongly built.

Nothing succeeds like success and the favorable comments upon the chautauqua this year have been more numerous than ever. As previously noted, the attendance has been much larger than last year, and the people have been universally satisfied with the programs presented.

Not one single feature has interested the people more than the Red Cross pageant. It represented a vast amount of work in which hundreds participated, and made up a successful program to everyone's enjoyment. The directors certainly made no mistake in arranging for Red Cross day.

REV. FERNANDES MANAGING EUREKA CHAUTAUQUA

The Eureka chautauqua will open today and continue thru Sunday, August 28. There is local interest in the fact that Rev. E. L. Fernandes, formerly resident here, will be the platform manager. The announcement referring to the platform manager, says:

"The directors have chosen as platform manager Rev. E. L. Fernandes, the popular pastor of the Presbyterian church. He has but recently come to Eureka, but he has made a host of friends in that brief time, and the announcement of his selection as platform manager will meet with popular approval. Mr. Fernandes is himself a very capable speaker, having won a prize for the best address while a student in McCormick Theological Seminary, and is well fitted to fill the position as platform manager very acceptably."

Mrs. Sarah Curtis and daughter Miss Edna of St. Louis are visiting Mrs. George Hocking on South Main street.

LOOKING FORWARD TO 1922 CHAUTAUQUA

TICKET PLEDGES FOR NEXT YEAR COME IN RAPIDLY.

Two Fine Addresses Heard by Saturday Audiences—Rainbow Division Band Is a Great Organization—Chautauqua Notes.

If there had been any doubt about the interest of the people in next year's chautauqua, that doubt was dispelled when the opportunity was given Friday and Saturday to make subscriptions for tickets for the 1922 assembly. There was no compulsion at all about the matter. The general conditions were simply explained and people were given a chance to subscribe. The result has been that a large percentage of the necessary subscriptions have been signed.

H. H. Bancroft made the presentation at the big tent last night.

Saturday marked another successful day for the 1921 chautauqua. The weather was perfect and other conditions helped to make for large attendance. At the morning hour, Platform Manager Charles A. Gare delivered his final lecture. In the afternoon the audience heard a concert program by Morgans Rainbow Division band, together with a lecture by Lincoln McConnell. In the evening Mrs. Mabel Loomis Stevens made an address and the Morgan band was heard in a second program.

Ticket Demand Good.

Earlier in the evening Dr. R. O. Porter talked a few moments upon tuberculosis work which is being done in Morgan county and still later an opportunity was given those present to make subscriptions to tickets for next year. It had been previously explained that the directors had decided that tickets for next year shall be \$2.50. This will include the war tax, so that the total is only 30 cents per ticket more than the charge this year. When it is remembered that the season ticket pays for ten full days, it is readily seen that the price fixed for next year is extremely low.

Mr. McConnell, who made the Saturday afternoon address, is the pastor of the largest institutional church in the state of Alabama. His theme was "Wake Up, America." Mr. McConnell said that America had been asleep until the world war came and that the battles of that war brought a rude awakening.

A Day of Subtle Danger.

"The war is over for some Americans and with it responsibility has ceased. Because there are no bombs flying in the air, no sound of heavy guns, they think that all danger has passed. But as a matter of fact the times are more dangerous than ever before and threaten our very national life. The dangers are more subtle today than they were in the war time. This government of ours represents the best there is in its ideals and our duty is to preserve those ideals.

"One great need of the day is a greater respect for law. We must remember that we cannot properly talk in a critical way about our government for the people who make up that government are really our servants. If we are not satisfied with them, we should put them out and elect those to office in whom we have greater confidence. One great lack is our failure to give proper support and backing to officers after we have elected them.

"I say there is greater need for respect for law because there is too much talk against authority. Children hear our criticism of the government and our rebelliousness against certain laws, and they become imbued with disobedience. One of the problems to which America must awake and give attention is the fact that there are 14,000,000 illiterates in this country. We must realize, too, that 28 per cent of our population is made up of foreigners. While millions of these foreign-born people today are holding lucrative positions, thousands upon thousands of ex-service men are without employment. So immigration and general industrial conditions are questions which must have our most earnest consideration."

Dr. McConnell interspersed his serious suggestions with a number of sprightly stories and the audience was very much impressed with his lecture.

The Rainbow Division band in the afternoon and evening programs fully measured up to expectations. These musician soldiers play with a military style that gives a certain finish to their various selections.

A Picture of Palestine.

Mrs. Mabel O. Stevens had for her theme in the evening lecture "The Little Red Rose." Mrs. Stevens has spent many years in the Holy Land and last night she appeared in costume, wearing a silk coat fashioned after the garment worn by an official in a city of Palestine. Mrs. Stevens' address was in reality an interpretation of the songs of Solomon and she gave evidence of a long period of serious study and the opportunity of having spent years in the Holy Land. The lecture was quite different from anything previously heard at the chautauqua and the audience was genuinely interested.

MORGAN COUNTY FAIR

POULTRY EXHIBIT

Every indication points to a fine exhibit of poultry and rabbits at this our home county fair. The indications are that the Barred and White Rocks, White Wyandottes, White and Buff Orpingtons, single comb, White and Brown Leghorns, single and Rose comb, Rhode Island Reds with an additional number of other standard breeds, not so popular but of equal merit when tested for fancy and utility features in demand now for meat and eggs.

The fact that state fair barred rocks will also be shown here by Mrs. George Deterding of Concord and by Mrs. Carl Anderson from Orleans neighborhoods and Rhode Island reds by at least ten of our city and county fanciers and breeders, this most popular breed will have ample display room and will be judged like all other competing for honors both for fancy or standard points as well as laying possibilities.

Rabbits will have a display row as Morgan county has many breeders of high class specimens. Winners of last year and this year's state fair exhibits will be shown here by several of our local breeders. Another breeders should bring out these animals so that they may compete, as well as compare theirs with what others have. This will be a school of instruction. The tent, 70x40 provides for these displays, as well as water fowl will prove one of the finest educational exhibits in the fair grounds. Those in charge will spare no effort to welcome and be of help to any and all who will show their fowls or rabbits.

BACK FROM SPRINGFIELD.

Samuel Hunt, chief of the fire department, returned from Springfield Saturday afternoon, where he had been attending the state firemen's tournament, held in connection with the state fair.

MORTON ROAD

TO BE CLOSED

Contractor Loneragan Making Ready For Active Work—Something About Equipment.

The Morton road will be closed Monday between the end of the hard road and Arden. Construction is ready to commence in earnest. Contractor Loneragan has one of the largest mixers on the job that is used. The machine mixes more material at one time than any other mixer ever used on roads in this part of the state. The equipment also includes a giant crane that lifts a whole car load of material at one time. The difficult question of water supply has been solved by the use of two very powerful pumps which will draw water thru pipe lines from neighboring streams or ponds. The location of the work progresses. The camp for the workman is under construction and will be finished in a short time.

The road is considered a sixty foot highway, generally speaking. The paved part will be eighteen feet in width. On either side of the pavement there will be a six foot width of graded dirt road. Beyond this will be five foot ditches and the remainder of the space will be taken up with embankment and safe guards. This width will necessitate the removal of hedges along the road and the telephone poles will have to be moved back, as will the fences. The state will bear the cost of removing the hedges but the removing of the fences and telephone poles will have to be done by the farmers and telephone company.

All traffic towards Springfield will now have to take the state road. In order to improve the state road for the increased traffic it will have to bear, considerable grading and oiling is being done.

WASHINGTON LAWYER TO BE GIVEN FREEDOM

Has Been Serving Life Sentence
in Baden-Baden for Murder of
Mother-in-Law.

Baden-Baden, Germany. — (By the A. P.)—Karl Hau, a lawyer of Washington, D. C., who has been serving a life sentence here for the murder of his mother-in-law, the widow of Dr. Millitor of Baden-Baden, will be given his freedom in 1925, he has been notified by the Baden government. The government gave no reason for the pardon or for the unusual fact that it was announced four years before it became effective.

When the American once again takes up his work in the world he will have forgotten much of his law, for he has had little time to read, but he will be an expert table maker, at which task he has been engaged since his imprisonment began in 1905.

Hau's conviction, on circumstantial evidence, attracted wide attention in Germany. The widow Millitor, reputed wealthy and with no other heirs except her two daughters, Olga and Dr. Hau's wife, was shot in the back

on the streets of Baden-Baden in November, 1906, as she was answering an alleged telephone call from a telephone office. This telephone call is said to have been the work of Hau, intended to lure Mrs. Millitor to the street, where a man with a false black beard shot her. Hau fled to London where he later was arrested.

A bachelor testified he affixed a false beard on Hau that day. Hau's wife, Lina, whom he had met and married in Zurich where they were both students, committed suicide after her husband's conviction leaving a letter in which she asked that the names of her children be changed, for she believed Hau had murdered her mother.

Who convicted Hau was in the employ of the Standard Oil Company, assigned to Constantinople. He was born in Bernkastel, Germany.

WOODSON MINISTER ENJOYING VACATION

Rev. I. H. Fuller Writes Interesting Letter About Vacation Visits—Plans Church Activities for Coming Weeks.

The Journal is in receipt of the following letter from Rev. I. H. Fuller, pastor of the Woodson Christian church, giving some interesting facts about his vacation visit in Kansas City and St. Louis, Mo., 8-12-1921.

To the Jacksonville Journal:
Dear Journal and all the readers: It has now been about three weeks since I have seen a copy of the Journal. Now they have a few little papers in Kansas City like the Star, the Post, so on, but I do not find in them what I do in the Journal.

I came to St. Louis a few days ago, and they issue a few small papers like the Globe-Democrat. The Times and so on—but I must see the Journal soon.

Our church board at Woodson Christian church told me some time in July to leave Woodson and not come back till September. So I left on time Aug. 4th at 9:30 p. m. and ran up to Jacksonville and caught the "Hummer" for Kansas City.

We visited our son, E. M. Fuller and family till Aug. 16 then, we came to St. Louis over the Missouri Pacific. We are now at 4916A Devonshire with our oldest son and his family.

Our stay in Kansas City was all too short and now we begin to count the days till we leave for Woodson. We are tempted here, almost above what we are able to bear. Across the alley from our back door, the Masonic order has a carnival going on. With many booths of useful things and toys and autos—and that which tempts us most is the big Ferris wheel at our back gate. It is all lighted up and great crowds about it. I am 55 years old and never rode on one of those things. If I do yield to this temptation I will tell my people about it when I get home. I have some grandchildren

With Morgan County Poets

Along with the bouquets come brick-bats, of course. We have heard it remarked that our column features only contributions that will not sell, dumped into the only available means of publication. Those who say it only betray their own ignorance of the poetry situation, as well as lack of cultivation of any personal standards of taste. As a matter of fact, comparatively few magazines buy verse, and least of all those who publish it exclusively—Poet Lore, Contemporary Verse, Poetry, The American Poetry Magazine, and The Measure—to name a few of the leaders.

Not one poem in a hundred (outside of the class of Walt Mason, Edgar Guest, etc.) has been bought and paid for. Yet out of this mass of "free" verse are framed anthologies, and from them Time will select the poems of the age, and for all ages.

Of today's contributions, the whimsical "Parchment" appeared in the Chicago Evening Post for June 20. The romantic "Blue Earth and Minnesota" sees print for the first time.

PARCHMENT

Since first in ancient Pergamus a scribe
Made smooth with pumice stone a piece of skin
And formed thereon a surface, white and thin,
On which to write the stories of his tribe,
How oft a messenger has traveled light
To haste with royal parchment to his lord!
How many men and nations, when they warred,
Have for a bit of parchment ceased to fight!

The humble sheep and goats have bled unknown;
Their flesh and bones returned to earth again;
Yet of their skins, where writ upon with pen,
Full many a score lie locked in vaults of stone,
While others, set in glass and gilded frame,
Attract far pilgrims who have heard their fame.

—WAYNE GARD.

BLUE EARTH AND MINNESOTA

Sweet Minnesota, the Indian maid,
And Chief Blue Earth were lovers gay;
And oft they danced in the sun and shade,
Till came the time of their wedding day.

Then they joined their hands where the rivers meet,
And the current carried them down the stream,
And they whispered low of life so sweet,
As they floated on in love's young dream.

But ah, the treacherous current knew,
Just where the eddies would suck them in—
Just how would end their sweet dream too,
Their life together and their "might-have-been."

Now the Minnesota winds along,
And the Blue Earth joins in a swirling leap,
But a story is told in Indian song,
How under their waters the lovers sleep.

—SUSIE A. HUGHES.

(Note—We were warned that at this place where the two rivers joined, it was very treacherous, on account of the undercurrent. I dipped my hands in the two rivers' junction.)

that are begging to ride on the big thing. I MAY have to go and take them one evening. I may have to go to the park one evening to see the animals too. The children are crying to go. I may have to go on the boat excursion if I can't persuade the children to stay. I could never rest a moment for fear they might fall overboard. They are real good grandchildren and I can hardly say no to them.

Now I will have to pack up to move to Woodson in a few days. When we get back there our vacation will end and work will begin. Sept. 4th will be visitation day. We expect the officers to assist the pastor and his wife in that day's work. Autos will assemble at the church at 2 p. m. and we want about four persons to each car. We want to call at least five minutes in each home connected with the church.

Sept. 11 will be Home-Coming Day. We hope to meet the whole membership and as many of those who used to be members, as can meet with us. It is our purpose to have Rev. M. L. Pontius with us in the afternoon if possible. Prof. Chas. E. McVay of Clear Brook, Va., is to be there and will sing. That is to be a great day in our work in Woodson. Luncheon will be had in the basement of the church at noon. A fine program is in preparation for the afternoon, when we will have speeches, song and a "Say-So" meeting. Our revival meetings will begin on that date. Sept. 11, Prof. McVay will have charge of the singing. The pastor and members will do the preaching and teaching. "Come thou with us, we will do you good." Watch the Journal for further notices.

FACTS ABOUT STATE CROP CONDITIONS

Recent Rains Come Too Late to Cause Much Improvement in Crops Is Statement of U. S. Agricultural Statistician.

SPRINGFIELD, Ill. — Recent rains in Illinois came too late to cause much improvement in crops according to S. D. Fessenden, U. S. agricultural statistician here. Truck and home gardens were relieved to some extent, but the past damage from heat and drought has been too great for large yields of vegetables to result. Fall plowing has started in nearly all sections.

The corn crop has been put in poor condition by the heat and drought in all areas. There has been some lodging due to recent high winds, but this condition is not extensive. The crop as a whole, is so far in advance of its usual development at this time, that danger of frost damage seems to be practically eliminated.

Yields of winter wheat and rye have continued to run smaller than had been expected. For the state as a whole yield of wheat averages about 16 bushels an acre; making a total of nearly 39,000,000 bushels. The movement of the new crop of wheat from the farm was slowed up during the past week by rains.

Thrashing of spring wheat, oats and barley has continued and is nearing the end. Some damage has been done to the grain in the shocks. Many stained oats are being received and are running very light weight.

Pastures, meadows and sweet potatoes were benefited by the recent rains. White potatoes are making a very poor yield, both as to quality and quantity.

A few apple orchards in the western section here produced something of a crop and several shipments brought high prices. Local grown watermelons and cantaloupes of excellent quality are still coming on the markets.

PAYS "CONSCIENCE"

MONEY TO RAILROAD
New York. — A conscience-stricken mother who, in 1916, travelled from New York to Chicago with a child between 5 and 12 years old for whom she paid no fare, has just sent a money order for \$9.55 to J. F. Shinn, general agent of the Erie Railroad here.

Desiring to clear her mind of "the wrongful act," the woman told her pastor, the Rev. W. S. Hiecock of Negaunee, Mich., and asked him to ascertain the amount due the railroad, with interest. This was done and the amount was forwarded and acknowledged by W. J. Moody, treasurer of the company.

CHEMICAL SOCIETY TO MEET IN NEW YORK

American and British Chemists to Compare Notes at Joint Meeting Next Month.

NEW YORK.—American and British chemists will compare notes and discuss the latest discoveries in the chemical world at a four days' joint meeting of the American Chemical Society and the British Society of Chemical Industry in New York beginning Sept. 6. About 4,000 delegates are expected to attend.

The British delegates, who will first hold joint meetings with the Canadian branches of the society at Montreal and Toronto, will be officially welcomed to America at Niagara Falls by Governor Miller. Before coming to New York, the delegation will visit Buffalo, Syracuse and Albany and inspect factories and laboratories in those cities.

The British chemists will be headed by Sir William Pope, who was knighted for his valuable services to the empire in the production of mustard gas in the war against Germany. Other prominent scientists in the party will include Dr. Louis A. Jordan, who aided the Italian government in the manufacture of explosives, Dr. Andrew McWilliams, one of the best known steel metallurgists in England, Dr. Andrew Smith, an international authority on explosives, and Dr. William Atack, authority on dyes.

AMERICAN LEGION NEWS NOTES

More than 170,000 women members of 3,400 units will be represented at the first national convention of the Women's Auxiliary of the American Legion to be held at Kansas City simultaneously with the third national convention of the Legion October 31 to November 2. The auxiliary has completed departmental organizations in more than thirty states. At the coming convention it will select national headquarters and perhaps a new name.

When Nathan Potak, a youth from Ukrania, gave his life to the service of the United States in the World War, he made a sacrifice which may save his father, mother and two brothers from deportation. The family arrived in Minneapolis nearly penniless and were taken in custody by immigration authorities as violators of certain immigration regulations. Then they learned for the first time of their son's sacrifice. The American Legion is endeavoring to obtain for them the \$10,000 government insurance, state bonus and dependents' allowance.

The Hollywood, Cal., post of the American Legion, composed chiefly of members of the motion picture colony, will send more than 100 entertainers to the annual reunion of the ninety-first division at Los Angeles, Sept. 24 and 25.

George Boehmer, overseas veteran of Springfield, Ill., waited two years for the war risk bureau to adjust his claim for compensation. The award came eight hours after the veteran had succumbed to tuberculosis. William G. McCauley, department commander of the American Legion, who had been assisting Boehmer with his compensation claim, wired to Washington as follows: "Boehmer received his reward this morning. Case now in hand of his Maker."

More than one eighth of the population of Radcliffe, Ia., is enrolled in the American Legion. The town has 106 ex-service men out of a population of 800 and every one of them is a member of the local Legion post.

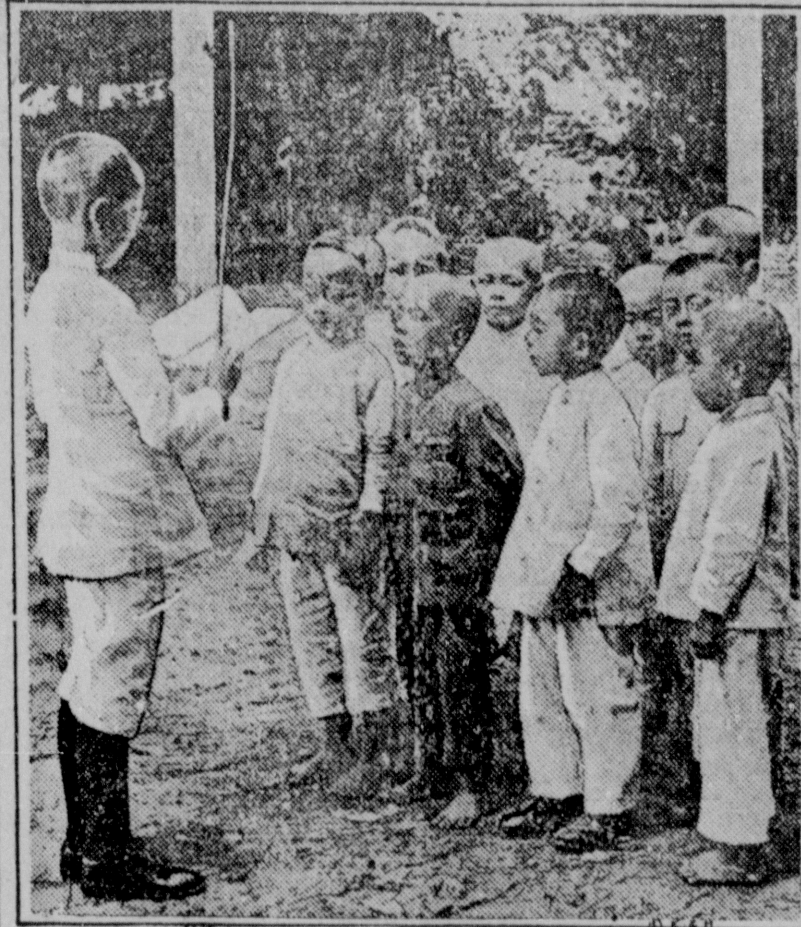

Every post of the American Legion in Illinois will donate a five year old tree to be planted on the grounds of the new Speedway Hospital at Chicago which will be dedicated by the American Legion Armistice day.

Joyce Lewis, member of the American Legion at Long Prairie, Minn., was among the mourners at the funeral of his buddy Corporal Robert Burns Hess at St. Paul, Minn., last week. Lewis owes his life to the dead soldier. The latter had dragged him wounded out of a shell hole and was later killed in action. Lewis recovered and returned to the United States. He lost all trace of his rescuer until he read in a newspaper that the Hess' body would be brought from France for reburial.

Altitude trials, parachute drops and a spectacular aerial derby, participated in by Eddie Rickenbacker, William Furlow, Edgar Tobin and other famous aviators will be included in the third annual convention of the American Legion at Kansas City October 31 to November 2.

A Stern Teacher

There's a teacher shortage in Singapore. So the older boys are pressed into service. Notice the stick in the young teacher's hand. He sees that his pupils escape nothing that he experienced in his younger days. No, No! Those aren't pajamas the little shavers are wearing. They just dress that way.

CARRIER PIGEONS FAIL TO REACH DESTINATION

Birds Sent from Pageant of Progress to Springfield Did Not Reach End of Journey.

Springfield, Ill. — By the Associated Press.—Pot hunters or hawks are believed to have intercepted messages from Chicago Pageant of Progress to Springfield. Fifteen carrier pigeons released from the municipal pier failed to reach their destination. Three others, released at the same time, showed up at Bloomington, where they were originally trained.

State Senator John A. Wheeler of Springfield, one of the leaders of the Small faction is one of the foremost pigeon breeders in the country. His cote contains over 200 choice English and Belgian homing pigeons including birds which have frequently been victorious in pigeon races in various parts of the country.

When the Pageant of Progress opened Senator Wheeler was training a team of eighteen pigeons between the municipal pier and Bloomington. Training for the final lay between Bloomington and Springfield was to have been taken up later.

Just before the Pageant opened Senator Wheeler released his birds on their last training trip. As they shot away from the municipal pier, Senator Wheeler watched their rapid flight into the smoky skies of Chicago. They disappeared towards the south and except for the three which arrived at Bloomington their owner never saw them again.

"Weather conditions sometimes interfere," Senator Wheeler said today in discussing the loss of his birds, "but I believe hunters or hawks were responsible this time."

Senator Wheeler is a member of the Springfield Homing Pigeon club of fifteen members. His birds were to have carried messages to Gov. Small from Mayor Thompson of Chicago.

Mrs. Minnie Hoffman Higbee will return to the city Aug. 29 and will resume teaching of Violin, Piano, Harmony and Theory in this city after Sept. 1st. Studio in Morrison Bldg., opposite Court House. Pupils or parents or prospective pupils are invited to confer with her regarding rates and time. Ill. phone 50-1120.

Church Services Today

Bethel A. M. E. Church—Rev. R. H. Hackley, minister. Open air meetings tomorrow in the large tent on the grounds. Preaching services at 11 a. m. and 8 p. m. Sunday school at 2:30 p. m.

Salem Evangelical Lutheran church, near College and East streets—Thirteenth Sunday after Trinity. Sunday school at 9 o'clock a. m. Public worship with communion at 10:30 a. m. Preparatory service at 10 o'clock. There will be no evening worship. A cordial welcome to all. The Ladies' Guild is requested to meet after the morning service.

Brooklyn M. E. church, G. W. Randle, pastor; G. H. Reid, S. S. superintendent—We invite all who have no services of their own to our program for the day. Sunday school at 9:30 a. m. Public worship at 10:45 a. m.

and 7:30 p. m. Morning theme, "The Will of God." Evening subject, "Blind Bartimaeus." Prayer meeting on Wednesday night will be led by Frank Bourn. All committees on the bureau will meet at the church Monday evening at 7:30.

Trinity Episcopal Church—13th Sunday after Trinity. J. E. Langton, rector. Early service at 7:30. Morning prayer and sermon at 10:45.

Northminster Presbyterian church—Walter E. Spoon, minister. Preaching at 10:45 a. m. The subject will be "Our Common Father." Sunday school at 9:30 a. m. William Richer, superintendent. The school is keeping up fine during the summer. The committee that was appointed to arrange for the picnic will report at the morning meeting. A strong effort is being made to have the largest annual celebration this year that we have ever had, and in order to do this every one must do their part and be sure to be present. Remember that next week the evening service and prayer meeting will be held as usual. Let all take their place in these services.

Grace Methodist Episcopal church—Thomas H. Tull, pastor. 9:30 a. m. Sunday school. T. V. Hopper, superintendent. Classes in all departments. 10:45 a. m. Morning worship. Theme of sermon "Job, and His Three Friends, Or Mistaken Theology." No other service during the day. The Boy Scouts of Troop No. 7 will start for Mercedia Monday morning at 7:30. Each scout is expected to be at the church not a minute later than that. We are still needing quite a large number of homes for the entertainment of our conference guests. If the canvassing teams have missed you, please report to one of the pastors. Whether it is convenient or not. These guests must be provided for.

Central Christian church—M. L. Pontius, minister. Bible school at 9:30 a. m., followed by a devotional service, concluding with the communion service. Because of the chautauqua there will be no other service during the day.

Congregational church—Rev. Geo. E. Stickney, minister. Church school at 9:30. Dean Scott, superintendent. Dr. Post's bible class at 10:00. No preaching service. Mid-week service Wednesday at 7:30 p. m. Leader, Miss Ruth Bailey. Report on certain phases of the M. E. M. conference at Lake Geneva.

First Church of Christ, Scientist—523 West State street. Services: Sunday, 11 a. m., subject of the lesson sermon "Mind." Sunday school at 9:30 a. m. Wednesday evening testimonial meeting at 8 o'clock. The reading room is open each week day from 3 to 5 p. m. The public is cordially invited to attend the services and visit the reading room.

SCHOOL NOTES

The general offices of the board of education and the superintendent of schools have been moved into the new high school building and are now operating from that point. The office telephone is just the same as that in the telephone book. All schools are being put in readiness for the opening September 6th. Grade schools will open at 8 o'clock and the junior and senior high schools at 8:45. A great deal of work is necessary to get the new high school in shape as well as the revamping of arrangements in the junior high school building. Some of the equipment is on hand for the new high school building and it is hoped that in a short time a large part of the working material will be here. It is hoped that the junior and senior high schools may be started at the very beginning of the high school will be that of the school year.

One of the special departments the vocational agriculture which will be under the direction of J. H. Loomis, a specially trained expert in this line. A later announcement concerning this department will be made thru the papers.

In this agricultural section of Illinois, the course offered will be of particular interest to boys who are living on the farms, those who will inherit farms, and for those who in any way will come in contact with farms and farm values. A special laboratory is being prepared for this work. Mr. Loomis will be in his office beginning next week and will be glad to consult with any and all of the boys who are planning to take this work. Already several classes have been formed. The instructor is planning on visiting the boys on the farm and ascertaining the conditions under which the experiments, etc., will be carried on. This is a very unusual opportunity and one which will add very largely to the efficiency of instruction for this community.

Principal Shafer, of the high school, is located in his office in the new high school building and may be reached there or by Illinois phone 1701.

For pupils who have not registered in the high school the week of August 20 to September 2 has been set apart. Pupils must be graduates of an eighth grade to be admitted to the high school. They should bring evidence of this fact in the shape of a certificate or diploma.

CANNED GOODS ARE GOING TO BE HIGHER

The following from the Washington, D. C., Post will be of interest to every household: "After an extensive tour of eight states, studying crop conditions, Granville Hunt, former chief of the canned goods division of the Federal Food administration, believes that now is the time for all thrifty and wise housewives to lay in the winter supply of these commodities that America is liable to suffer a dearth of canned goods, and that with the augmented demand and the limited supply the price will naturally rise to higher levels.

"The corn packers of Iowa," declared Mr. Hunt, "are packing only 20 per cent of the normal crop. In from four to six weeks to pack the entire crop of peas, the work was done this year in ten days. This was due to the restricted acreage and the drought. New York packers are prepared to send out only 60 per cent of their normal shipping. So it goes. In Michigan and the upper tier of counties in Ohio, where fruits and berries are packed in great numbers, the frost nipped the crop with the result that one can go for mile after mile without seeing trees in blossom. In one of the largest orchards of that section I saw only one cherry tree in bloom and that one of late variety.

"Minnesota will pack only 42 per cent of its crop this year. Ohio's crop of peas and tomatoes will be approximately 45 per cent of what it was last year if present weather conditions do not reduce it to lower levels. The tomato crop of Hartford county, Md., will be only about 5 per cent, that is 5 per cent available for packing. Over the entire Eastern Shore the pack will not be more than 25 or 30 per cent. The only answer, as I see it, is for the thrifty housewife to fill her pantry with such commodities as she needs to carry her family through the winter, for prices for these goods may be as high before the snow flies as they were during the war period."

MANCHESTER

Manchester, Aug. 19. — Miss Nannie Meehan of Waverly is visiting Mrs. R. H. Walton.

Miss Lizzie Mason of Winchester arrived Tuesday for a visit with Miss Jean Cooper and other relatives.

Mrs. Ella Goodall has been at the home of her son, Edward, in Roodhouse, for several days, caring for her daughter-in-law, who is seriously ill with typhoid fever.

Henry Cain is on the sick list. Quite a number from here enjoyed a picnic at Kampsville Wednesday.

The party included the families of Walter Scott, William Duncan, Frank Blackburn, James Smith, Walter Rimby, Clyde Chapman, Misses Anna Frances and Lennie Chapman, Wilbur Cooper, John Scott and Mrs. Robert Cooper of Roodhouse.

Misses Ida and Helen Forrester and Miss Josephine Murray have returned to their homes in Hillview after several days visit with relatives and friends here.

Mrs. Austin McPherson and little son of Jacksonville, are visiting her parents, Mr. and Mrs. Ed Walker.

Mr. and Mrs. Albert Livingston of Springfield are visiting Mr. and Mrs. A. A. Cowgill.

Mr. and Mrs. Clinton McConnell are the proud parents of a baby boy born Aug. 19.

**AGRICULTURAL ASSOCIATION
PLANS STATE PICNIC**

Extensive preparations are now being made by the Illinois Agricultural Association for the state picnic of its members to be held at Assembly Park, Dixon, on September 3. Farm bureau officials estimate that as many as 15,000 farmers may be expected at the annual gathering if weather conditions are favorable.

Preparations for the parking of thousands of automobiles have been made at Dixon.

A horseshoe pitching contest for the championship of Illinois is one of the main features of the picnic. The tournament in which teams representing each of the ninety county farm bureaus of state will compete is scheduled to last during the entire day.

William G. Eckhardt, of De Kalb, treasurer of the U. S. Grain Growers, Inc., the new farmer-owned grain marketing corporation is slated as the main speaker of the day. Howard Leonard, president of the Illinois Agricultural association, will also give an address.

A baseball game between the county farm advisers and officials of the Illinois Agricultural association will be played.

A huge tug of war is another feature.

Bands, motion pictures, swimming, boating and the well-filled dinner basket which each farm family will bring are other high lights in the big agricultural outing.

**SWIFT & COMPANY
PRODUCE REVIEW**

Lower prices now prevailing on poultry are due to heavier movement. Indications are that we will see continued heavy shipments to market with still lower prices, as prices on poultry for some time have been out of line with prices on other kinds of live stock.

Hens are now in the molting period, which is having some effect on the general quality, and is responsible for the lower dressed markets.

Production of cream is showing some increase, due to pasture conditions, and markets have declined in line with general markets on other commodities.

Egg production is now light, and the trade generally is turning to the use of storage eggs, as the amount of fresh eggs being marketed is not large enough to care for the consuming demand.

Swift & Company, Chicago.

GERMAN BANK BUILDS UP CREDITS IN NEW YORK

Action Is in Anticipation of Further Reparations Payments Due England and France

NEW YORK — The German Reichsbank, known under the Hohenzollern regime as the Imperial Bank of Germany, has begun to build up fresh credits here in anticipation of further reparations payments due England and France.

Some 200 cases of bar silver, valued at about \$850,000 have been received here by the Equitable Trust Company, representing the German government. It is thought that fully one-quarter of the August reparations settlement, which may aggregate \$20,000,000 will be paid in silver metal, of which Germany is said to have large supplies.

Reports from abroad state that German bankers find it more advantageous in the present state of exchange to ship silver to this country than to hypothecate the metal at home against foreign credits.

Some of the gold which Germany is to pay thru this market this month is likely to take the form of bullion melted down from French and Russian coin. Germany already has paid to France much of the gold which she extracted from that country as part of her indemnity after the Franco-Prussian war and which for many years was part of the imperial government's "war chest."

NEW YORK SALES ARE ENORMOUS

Biggest Thing of Kind Ever Seen in That State Says Big Wholesale.

The fact that 625,000 bottles of Tanlac have been sold in the state of New York since its introduction there less than one year ago, is a big business item that will attract unusual attention throughout the entire east, for nothing like it has ever happened before. It breaks all records.

Mr. George B. Evans, manager of the Gibson-Snow Company, the well known wholesale druggists, with branches in Albany, Buffalo, Rochester and Syracuse, recently announced that the preparation was now selling in their trade territories alone at the phenomenal rate of approximately 500,000 bottles a year.

"If the present rate continues," said Mr. Evans, "this state alone will probably require considerably over 750,000 bottles a year. This is a tremendous figure, but I am really conservative in making this statement."

Tanlac is sold by leading druggists everywhere.—Adv.

Japanese Influence From Paris!

International complications seem to threaten the fashion world. Lord & Taylor, New York, are showing new parasols—straight from Paris—which are adaptations of the paper Japanese umbrella. Figured silk crepes pleated like paper form the outside while a lining protects the user from the sun. Other novelties are the "mushroom" and parasols representing orchids and roses.

WILL FORM NATIONAL AIR ORGANIZATION

With Idea of Making America Foremost Nation in Aviation. Such Organization Will Be Formed at International Aero Congress in Omaha.

Omaha.—Formation of a national air organization with the idea of making America the foremost nation in aviation is expected at an international aero congress sponsored by the Aero Club of Omaha to be held here Nov. 3-5 at which time a reunion of aviators who served in the American and Allied armies during the world war are to meet for the first time since the armistice.

The re-union, which is to follow immediately after completion of the national convention of the American Legion at Kansas City, will bring together many of the American aces, while delegates from every state in the union are expected to attend the meeting for forming the national air organization.

At the same time a complete exhibit of every type of aircraft manufactured in this and foreign countries will be held, while another feature of the gathering will be an aviation meet with nearly \$15,000 offered as cash prizes. Attempts for new speed and altitude records are to be made.

THEIR KINDNESS REMEMBERED

Some weeks ago the Journal mentioned the fact that some trans-continental tourists had received an especial courtesy at the hands of some Jacksonville citizens who accompanied them as far as Riggston, treated to soda water and showed other favors. The home men were T. M. Tomlinson and Fred Randall.

Yesterday Mr. Tomlinson received a card from the tourists who had not forgotten him. The writer said:

At the End of a Long Trail, Long Beach, Cal., Aug. 15, 1921.

Mr. Tomlinson,

Dear Sir: Arrived here all right after a fine trip thru the mountains, Colorado Springs to Salt Lake then to Long Beach, via Las Vegas, New Mexico. Had one puncture en route. Will leave here about the 24th for Indiana.

Your Hoosier friends, J. W. Grey, wife and daughter, Jeanette, Rockville, Ind.

OPEN AIR WORKSHOP FOR BOSTON CHILDREN

Boys and Girls of Public Schools Go Into Competition with Santa Claus in Making of Gifts.

Boston.—Hundreds of boys and girls of the Mary Hemingway public school in the Dorchester district have gone into competition with Santa Claus in an open air workshop here and Christmas time will find their handiwork scattered in many gift packages.

With work benches set up under fragrant fir trees in a natural park on Lonsdale street, the youngsters whittle and saw away making toys, furniture and unique gewgaws out of any material that comes to hand.

Toy ducks, horses and pigs or tanks, soldiers, chairs, dolls, guns, and airships—all are products of the expert hands of these young enthusiasts. Even the refuse heaps furnish material. A sardine can becomes a cookie cutter, a salmon can shapes into a cruller cutter and beer tops make excellent caps for tin soldiers. A jigsaw in the hands of a capable youngster produces a monkey on

a trapeze that rolls around like a performer in a circus.

Chair caning is a fascinating job and mother's old arm chair gets many a new seat.

Work is carried on from nine until four under the supervision of Miss L. Gertrude Howes with two manual training teachers to show the student how to manipulate the tools. A house that is used for a bad weather shop has been equipped with furniture made by the children.

G. W. Barber of Terre Haute, Ind., is here called by the serious illness of his aged father, John Barber, north of the city.

NEW LEGISLATION GOVERNS WATERWAYS

Much Constructive Waterway Legislation Passed By 52nd General Assembly — Drainage District Plans Must Be Submitted to State.

SPRINGFIELD, Ill.—By The Associated Press.—More constructive waterway legislation was passed by the 52nd general assembly than by any former Illinois legislature, William L. Sackett, state superintendent of waterways declared today in discussing new amendments which put all water projects under strict regulation by the state.

Under the new amendment, no piers, docks, bulkheads or dams

may be built in any stream or lake in Illinois without authority from the state. The law covers drainage districts, parks, country clubs and private land owners. Erection on any stream or lake without authority from waterway officials is a violation subject to heavy fines or imprisonment.

The law was also strengthened to give the division of waterways broader powers in protecting streams from pollution by sewage.

Control of Submerged Lands. Direct supervision and control of all submerged lands in Lake Michigan has been taken out of the hands of park boards and vested in state authorities by the new law. None of the park districts along the lake front may proceed with improvements without submitting their plans to state authorities.

Country clubs wishing to dam streams must wait until state engineers have surveyed the surrounding territory to ascertain the possibilities of damage to other lands in case of floods.

Legislation affecting small downstate streams has been overlooked generally in view of the far reaching effect of large waterway projects—the Illinois Waterway, the Great Lakes to Atlantic route and Chicago drainage matters—Mr. Sackett said.

Not Necessarily Restrictive.

"At first interpretation of this law it might be considered as unnecessarily restrictive," he said, "but in the last four years the division of waterways has been requested to investigate all sorts of conditions resulting in overflow damage, destruction of streams by pollution, so as to deprive people of their legitimate and lawful use, or by structures or bridges that obstructed flood water disposal or interfered with navigation. In almost every case damage could have been avoided had there been knowledge of facts and of water flows."

"The law requiring submission of plans to the Division of Waterways gives opportunity to investigate and determine whether damage will result or not. The people are given valuable engineering assistance and saved the heavy expense of employing technical men. If the proposed work is found of a character that will not be harmful, a permit is given. If investigation shows it will result in damage and a change in plan will avoid it, state engineers indicate the changes to be made and let the work proceed. If damage will follow the proposed work is not permitted. If work is done without complying with the law and results in damage the State requires its removal, whether it be a pier, wall, earth or other sort of fill."

Affecting Drainage Districts.

"Plans of all drainage districts of the state, where streams are to be changed in any way must, under the law, be submitted for approval to the Division of Waterways. By this method, the state, having complete information of water flows of various streams and water sheds, can determine whether the plans are adequate for the uses proposed, require each district be a unit that will connect with another district in the same water shed and prevent useless expenses and damage from avoidable floods."

"The new law by act of the 52nd General Assembly, gives broader power of supervision than heretofore, including parks and drainage districts, but under the law as it has been in force for two years, the Division of Waterways has saved municipalities great expense in connection with sewage treatment systems, because no sewer system out-let can now be legally constructed into a stream or lake without the plans being first submitted to the division. These plans are checked by expert engineers, as are plans for all other work in the waters of the State. One municipality of the State has saved several thousands of dollars in faulty construction and probably the loss of many lives by having its plans checked by the State under this law and farmers in many parts of the State have been saved from improper or ineffective construction in connection with various enterprises."

TO STUDY ANIMAL LIFE IN YELLOWSTONE PARK

Yellowstone Park, Wyo.—Yellowstone's wild animal life is going to be put under observation by Edmund Heller, who gained fame by accompanying Colonel Theodore Roosevelt into East Africa. Heller, who soon arrives in Yellowstone, will spend some of the earlier winter months studying chiefly the moose, elk, bison, deer and antelope.

Springfield, Ill.—Spontaneous combustion caused most of the fire losses in Illinois in July according to the monthly report of the state fire marshal. Fires of this sort caused destruction of a \$543,000 warehouse at Stickney in Cook county, and \$364,000 loss at the Rock Island arsenal. The total fire loss for the month was \$2,169,062. Electricity caused a \$18,201 loss, and lightning \$156,010. Eight persons lost their lives in fires and forty were burned in July.

LABOR CONDITIONS IN STATE IMPROVE

Free Employment Offices Report Slow Improvement in Labor Conditions Throughout State, During First Half of August.

SPRINGFIELD, Ill.—(By A. P.)—Reports for the first half of August from five Illinois Free Employment offices outside of Chicago, show that labor conditions are slowly improving all over the state, according to Director George B. Arnold of the department of labor.

Peoria reported that a local brick company has reopened its plant and employed 120 men. Prospects for renewed industrial activity were the reasons assigned for beginning work.

Another plant manufacturing roofing materials and paper products, which had been shut down for five weeks, resumed work with over a hundred workmen.

More than half of the six thousand coal miners in the Peoria district are busy again. There were more applications for work than positions available, but with the difficulties between the unions and employers in the various trades stilled, and immediate resumption of activities in the various branches of industries was expected.

The Rockford report stated there was no let up in the building industry. Permits were being issued every day—most of them for dwelling houses.

Work on the Grant Highway, between Rockford and Belvidere, has been started and more than 150 men have been put to work.

The furniture factories at Rockford have been employing more men, and there was a demand for skilled help in all industrial lines.

Canning factories in Bloomington recently employed about 125 men, and industrial conditions there have shown a general improvement. A home building campaign has been started, and this holds out a promise of employment to scores of men in the building trades.

In Rock Island, there has also been a decided improvement in the building lines. A large number of permits have been issued; calling for the erection of residences and other buildings in addition to a large number of improvements and additions.

"This is the most decided improvement in the building line that we have been able to report this season," said Superintendent Fred W. Rinck. "We cannot say that there is any uneasiness in labor circles here. Those out of work are greatly inconvenienced by the lack of employment, but we cannot report any distress."

In Danville, the men in the trades were fairly well employed. The surplus of common labor showed a slight increase all over the state.

ACCOMPLISHMENTS OF BLIND EX-SOLDIER

Corporal Christen Poulsen of U. S. Marines Begins Life Anew Under Serious Handicap—Is Now in Business in Chicago.

CHICAGO—(By A. P.)—To Corporal Christen Poulsen of the United States Marines, his discharge from an army hospital in February, 1919, meant beginning life anew—the life of a blind man.

In two years time, he has completed the readjustment and today Poulsen is in the fuel and feed business in Chicago, does a full day's work every day and, with the aid of his wife is taking a correspondence course in business management.

Poulsen was with the 16th Regiment of the Marines when a few thousand troops were chosen from the vanguard of American army to help block the German advance on Paris in June 1918. The Sixth Marines gave their aid to the allies, but among those who were left on the battlefield was Corporal Poulsen, fully conscious, but bleeding and sightless from the burst of a high explosive shell. Poulsen was wounded just one year to a day from the date he enlisted. He has been totally blind ever since.

Following his discharge from the army hospital, Poulsen entered Evergreen, the Red Cross School for the Blind, in Baltimore. There he took a course in typewriting, Braille, English and Civics and learned to make small useful articles. He was getting \$80 a month from his War Risk Insurance but wanted to earn his own living in addition.

A year later his father offered to give him work in his feed store in Chicago. Young Poulsen entered the office and began to learn to take orders and direct deliveries. Today he is a full partner in his father's business. Now he feels that he needs still further technical training in business and has begun a correspondence course under the Federal Board for Vocational Education. He is studying this course in his spare time, with the aid of his wife whom he married last year and now acts as his reader.

WIRELESS TELEPHONE
IS AID TO NEWS MEN

New Experiment in Reporting
Furnishes Solution for One of
the Most Difficult Problems of
News Men.

CHICAGO.—The wireless tele-
phone, used by The Associated
Press to cover the Great Lakes
boat regatta Aug. 4, 5, 6 and
7, furnished a solution for one of
the most difficult problems of
news men, that of getting the re-
sults ashore and into the office
promptly.

The ingenuity required to re-
port yacht races has furnished
many a romantic incident in news
reporting, but the wireless tele-

phone in this instance swept
away every previous known bar-
rier to speed.

Sitting in comfort on the deck
at the finish line, the Associated
Press reporter, without getting
out of his chair, called the names
of speed boats, as fast as they
flew past him, direct into the
office of the Associated Press in a
loop skyscraper. His voice car-
ried as clearly as if he had been
in an adjoining room.

The new experiment in report-
ing was made possible by the co-
operation of the United States
navy department and the naval
reserves of Illinois. The trans-
mitting equipment, furnished by
Captain Edward A. Evers, com-
manding the Illinois Naval Re-
serves, was installed aboard a
submarine chaser 419, placed at

the disposal of The Associated
Press by Captain Daniel W.
Wentworth, commandant of the
Ninth District and Great Lakes
Naval Training Station, Lieut. A.
C. Forbes, wireless officer of the
Illinois Reserves, was in charge
of the installation.

At The Associated Press offices
on the seventh floor of an office
building, a small receiving set
was placed on one corner of a
desk and for aerial, a single
strand of wire was stretched from
a window to a roof across an
areaway.

Lieut. Jack Henning, com-
manding the SC-419, anchored
alongside the judge's barge,
where the Associated Press cor-
respondent was able to talk with
judges, timekeepers and scorers,
follow the two and a half mile
race course with glasses, and dic-
tate his bulletins thru the air to
the office.

During the regatta the wireless
school at Great Lakes Naval
Training Station maintained a
telephone set at the Municipal
Pier, where thousands of visitors
to the Pageant of Progress heard
The Associated Press bulletins.

The naval wireless exhibit was
one of the most interesting at the
pageant. Visitors heard wire-
less telegraph stations in many
parts of the country and "listened
in" at hand and phonograph con-
certs in Chicago and other cities.

'Williamsons Best'
Beats all the Rest

WILLIAMSON'S BEST flour is made from the choicest
hard winter wheat, carefully selected by our ex-
perienced buyer; is ground in the finest and most
modern mill in the world by expert millers who have
spent a life time at their trade. This is a combination
which no mill in the world can beat. More bread to
a sack, will be made from Williamson's Best flour
than can be made from any flour on the market, and
for general use it is without an equal.

PAINFULLY INJURED

Yesterday morning Harold Zachary, son of S. T. Zachary of Ormsville, went into the stable to get out the horses to go to work, when one of them kicked him in the abdomen. Fortunately the wound was not serious, but the blow might have been fatal. The young man was injured, but so his father called him in an auto and hurried him to town and took him to Dr. Harris' office where he received attention. The doctor permitted him to go home again and said it would take a day or more to determine the extent of the injury, and in the meantime he will be kept as quiet as possible. Mr. Zachary's friends hope for speedy recovery of the invalid.

Daily Market Report

SEVERAL NEW LOW
RECORDS RECORDED

NEW YORK, Aug. 20.—Shorts
ruled during today's brief stock
market session. Selling pressure
from that quarter brought about
more low records particularly
motors and their accessories also
the less popular steels and equip-
ments.

Some recessions of one to
four points attended the steady
offerings of Pierce-Arrow, com-
mon and preferred, Willys-Over-
land, preferred; Chandler, Stud-
eaker, United States Rubber, Amer-
ican Car, Pressed Steel Car,
Railway Steel Spring and Cru-
ders and Republic Steels. United
States Steel was not materially
altered, traders evidently failing
to regard the further wage cut as
a bearish argument.

Rails were an unimportant fac-
tor, many of the better known
shares of that division falling of
quotations. Sales amounted to
140,000 shares.

Liberty bonds eased slightly
were any changes occurred at all.
Another contraction of actual
sales and discounts of about
\$39,000,000 was the only strik-
ing feature of the clearing house
statement.

This makes a total decrease of
approximately \$240,000,000 in
this item since the middle of
June.

News ranged from the better
business prospects reported by
mercantile authorities to rumors
which dealt unfavorably with the
financial status of various indus-
trial companies.

Chicago Livestock Market

Chicago, Aug. 20.—U. S. Bu-
reau of Markets.—Cattle.—Re-
ceipts 1,000; compared with a
week ago: Beef steers uneven,
strictly choice and prime grades
steady to 10¢ higher; others 25¢
to \$1 lower; spots off more; me-
dium and good grades suffered
most; fat stock generally steady;
in-between grades weak;
veal calves 25¢ to 50¢ higher;
stockers and feeders strong to
25¢ higher.

Hogs.—Receipts 4,000; largely
25¢ to 35¢ lower than yesterday's
average; top packing grades off
most; hold-over moderate mostly
held off market; top 10.15¢; bulk
light and light butchers 9.75¢ to
\$10.10; bulk packing sows 7.90
to 8.25¢; pigs 25¢ lower.

Sheep.—Receipts 2,000; Com-
pared with week ago: Killing
classes practically steady; feed-
ing lambs 25¢ to 50¢ higher

CHICAGO POTATO MARKET

BEAR PRESSURE
INCREASED IN WHEAT

CHICAGO, Aug. 20.—Bear
pressure increased in wheat to-
day and December wheat and all
deliveries of corn sold at a new
low on the crop. The liquidation
which has been in evidence in
coarse grains of late extended to
wheat and while there was a fair
showing of strength early the ad-
vance was short lived.

Trade was not large and was
mainly of local character with
some buying of September wheat
attributed to seaboard account.
Prices closed weak, 2 1/4¢ net
lower with September at \$1.14 1/4
to \$1.14 1/2 and December at
\$1.15 1/4 to \$1.15 1/2. Corn closed
weak, a shade under the opening
with September at 5 1/2 to 5 3/4
with oats closed 1¢ higher.
Economic conditions are appar-
ently making an impression on
the wheat trading.

Reports of good export demand
had little effect, even tho the
seaboard estimated that around
1,000,000 bushels had been sold
abroad the last week.

Country offerings were much
smaller and cash prices about un-
changed.

Oats showed independent
strength and averaged higher
altho closing around the inside
figures in sympathy with the
break in other grains.

Provisions averaged somewhat
lower with some buying of lard
credited to packers, while com-
mission houses sold the break
of 25¢ to 35¢ in hogs and the
weakness in grain.

STUDY SKULLS OF NOTED TERRORISTS

Skull of Lenin Boys Leader Shows Worst Form of Human Degeneration.

BUDAPETS.—(By A. P.)—Hungarian phrenologists who have made a careful study of the skulls of 30 notorious red terrorists sentenced and hanged after the fall of Communism in this country have just reported that "Bolshevik terrorists, though exhibiting signs of abnormality, seem not to belong to the type of born degenerate criminals."

All the 30 were members of Bela Kun's fearful bodyguard called "Lenine boys," all were found guilty of numerous murders and robberies and examined in their lifetime by the same doctor when under trial. "The skulls," runs the report, "are prognathic characterized by an exceptionally low forehead, deep eye-caves, big mouth, sharp protruding jaws, deficient dentition. When compared with the skulls of notorious common murderers preserved in the museum of the police they show the signs of degeneracy in a much less degree."

"The only exception is Joseph Csery, the leader of the band whose skull is easily first among the worst and most deformed specimens of human degeneracy. When examined during his trial the savage cruel look of his small evasive eyes startled even the professional detectors of crime. Small wonder that the Bolshevik dictator of Hungary, Bela Kun, felt afraid of the man and never met the chief of his devoted bodyguard without previously slipping a revolver into his pocket."

"The medical board holds the view that the Bolshevik terrorists, though undoubtedly degenerate individuals, would under ordinary circumstances never have committed murder, and their resistance to crime was much weaker than that of the civilized type and when the solid body of law and morality was shaking with revolutionary fever their half-slumbering ferocious instincts roused up and they killed with the savage passion of the neolithic man."

THE NEXT BIG EVENT after the Chautauqua will be the big fashion pageant to be presented by Shanken's Store at the Grand Theater Tuesday evening, August 23. Here will be shown the latest styles in ladies garments. A showing of such brilliancy equaled only by those of St. Louis, Chicago and New York. See program in big ad on page 16.

PITTSBURG MAY SOLVE HOUSING PROBLEM

Chamber of Commerce Formed in Pennsylvania City to Better Acute Rent and Home Situation There.

Pittsburg.—Two thousand new houses for the Pittsburg district within the next year is the aim of the housing corporation of the Pittsburg Chamber of Commerce formed to better the acute rent and home situation there.

Cheap money, construction at about one-half the usual cost, and expert supervision without charge are leading features of the plan. It has so appealed to the public that scores of building applications have been filed.

The movement is for civic betterment, without profit to the corporation. Its officers are giving their time and business experience without hope of financial reward. Bankers, builders and material dealers have fallen into line. The result has been that money for construction is available at the legal rate of six per cent without bonus, materials are being provided at little more than cost, and some 7,000 lots have been listed as available sites for dwellings.

The corporation has no money, nor does it assume any obligations. On the other hand it insists that every house be financed before work is started, but it helps in the financing.

It demands that each prospective builder shall have not less than 20 per cent of the total cost. Then it tells him where he can get a first mortgage for 60 per cent, and, if necessary, it puts him in touch with an institution that will take a second mortgage for the remaining 20 per cent.

"This plan is primarily to help those living on moderate salaries and incomes who have been hardest hit by the shortage of houses and the consequent high rents," A. W. Thompson, president of the corporation, says.

"With this in mind we have set out to build modest, substantial and comfortable homes at low cost. These houses will have all the conveniences and necessities. They will be good to look upon, but they will not be showy, and best of all, they will be worth every cent invested in them."

"We are simply applying to the man who wants a home the methods by which mass production has been successful, and giving him the benefit of the saving in costs." Applications for houses are grouped into blocks of ten or more, to get the benefit of heavy buying and concentrated supervision.

The corporation has eleven basic plans and will build houses of four, five, six and seven rooms, at a cost of from \$750 to \$1,000 a room. From these basic plans a limited number of other designs can be evolved. The plans are regarded as the best possible for this community.

Employees of a leading newspaper soon filled a club and decided to locate their colony in the South Hills district, while a large party of University of Pittsburg professors took up the question of building on land near the University. Neighbors living in flats and apartments in the congested residence sections have also approved the plan by forming neighborhood clubs. A number of manufacturing companies have taken up with the corporation the idea of providing houses to sell their employees at cost.

First Annual

FASHION PAGEANT

and Style Show

Given that the ladies of Jacksonville and vicinity may have an opportunity to see, on living models, the Suits, Dresses and Wraps decreed by Dame Fashion for this season's wear. Given also under the auspices and for the benefit of Caritas Rebekah Lodge No. 625.

The First Society Event of it's Kind Ever Given in Jacksonville

PROGRAM

At this Fashion Pageant will be shown evening and street gowns, coats and suits, brought direct from the Fashion centers of Europe as models and exhibited at the Style Shows in eastern cities, and recently shown at the manufacturers' pageant in St. Louis.

The exact dress, a Parisian creation, which won the first prize at the recent Pageant in St. Louis, will be worn by one of Jacksonville's well known young ladies taking part in the program Tuesday night. All these beautiful new garments have arrived in Jacksonville and will be shown by living models during the evening.

THE PAGEANT

Aside from the showing of lovely garments for ladies' wear, a most interesting program will be rendered in which some of Jacksonville's best known talent will take part, as well as the noted child elocutionist of Chicago, and the youngest actress on the Orpheu mcircuit. There will be music by the orchestra, songs, dancing and other entertaining features—not a dull moment during the entire evening—the first event of its kind ever offered in Jacksonville, and one that should pack the theater to overflowing. Come, see the most beautiful costumes ever brought to the city and enjoy a pleasant, profitable evening.
